PREFACE

PLEASE READ.

In offering this magnificent collection of coins, you are given an opportunity at a collection of valuable coins, which was about forty years in formation, and which undoubtedly contains many specimens you desire.

Mr. Chas. W. Cowell, now past his seventieth year, is one of the very first numismatists of this country and one of the "Pioneer" collectors of the Pioneer gold coins, of which his collection is so rich in many of the greatest gems of this most interesting series. He is a close student of the gold mint marks and of the minor varieties; and to his close study of all coins that come into his possession are due several discoveries of varieties heretofore unknown; chiefly among which is the excessively rare 1834 Half-Eagle with crossed four,—a variety Mr. Cowell discovered a few years ago.

Mr. Cowell was most actively engaged in forming this collection years ago, and, of course, had the opportunity to secure the finest specimens, as a careful perusal of this catalogue will readily show. While it is quite impossible to mention the numerous rarities of this collection in the preface, yet, it will not be out of place to call special attention to just a few of the greater rarities.

In THE PIONEER SERIES will be found some of the greatest rarities,—the Kellogg & Co. $50.00 gold piece, of which only thirteen specimens are known, is the gem of the collection; the Wass, Molitor $50.00 and the three other varieties of octagon $50.00 gold pieces are about as fine as found; the Pikes Peak coins include the exceedingly rare 1860 $20.00 and form the only and first complete set offered at auction; the Mormon coins, Miners' Bank, Norris, Griggs & Norris and the many beautiful and rare Carolina and Georgia coins; also the largest collection of California gold dollars, halves and quarter-dollars ever offered.

In United States gold, with the exception of the early Half-Eagles, the collection is nearly complete. And as regards the Mint Marks, this is, I believe, the most complete collection ever offered.

The Quarter-Eagles are worthy of special mention, as this interesting series is, with very few exceptions indeed, complete—from 1796 to 1910; not only of the Philadelphia Mint but of all the Branch Mints, including the rare Dahlonegas, and offering for the first time the 1855 D.

The three-dollar gold pieces lack only two dates, and include the 1873, 1877 and one of the finest known 1854 D.

The Half-Eagles and Eagles, especially those of the Branch Mints, are nearly complete.

The collector who is interested in Fractional Currency will find nearly everything he may lack to complete his collection, as the collec-

tion of Fractional Currency herewith offered is one of the finest and most complete ever offered at auction.

And then, the silver and copper coins are far above the average, both in scarcity and state of preservation. The 1836 and 1858 dollars; the 1794, 1801, 1802 and 1815 half-dollars; the 1796 and 1804 quarter-dollars; the rare dimes and half-dimes; and in the bronze, the 1793, 1799 and 1804 cents, and 1793 and 1852 and other fine half-cents are worthy of the consideration of any numismatist.

The collector who is interested in foreign coins and the historical ancient Greek and Roman, will not be disappointed with the specimens of these series herewith offered.

REGARDING DESCRIPTIONS AND "GRADING".

As can be readily imagined, I feel highly gratified and honored in having this magnificent and valuable collection entrusted with me. But what gratifies me most is the fact that the FIRST coins that I have ever had placed for sale with me, and on which I "made" my first commission, were placed with me by Mr. Cowell several years ago when I first began dealing in coins, and that through all these years my services to Mr. Cowell were of such a nature that justified his decision in selecting me to catalogue and sell his collection. I have spared no labor nor energy in cataloguing this collection as fairly as I knew how, and I hope that the manner in which the collection is arranged in this catalogue will be found worthy of the valuable coins it offers.

A FEW WORDS ABOUT BIDDING.

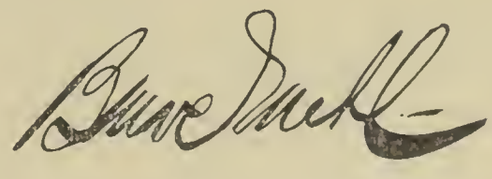
My past sales have ALL been very successful, but this is my "banner sale", and I want to make it as successful as it truly deserves. I want you to bid on anything that interests you, whether it is only one or one-hundred lots. If you think that a certain lot will sell for more than what you are willing to pay, do not let this keep you from bidding. Bid as much as you are willing to pay. Please remember that I buy for you as cheaply,—as much under your bids as the next highest bid will permit. In other words, I guarantee to execute your bids for you as faithfully and to give them the same good attention as if you had yourself been present at the sale.

I charge no commission for executing bids.

If any special information is desired regarding any lots, I will promptly and cheerfully send same.

I thank you very much for your past favors and sincerely hope to have the opportunity to serve you at this, my "Banner Sale".

Most truly yours,



Fort Worth, Texas, October 5, 1911.

TERMS OF SALE

PLEASE READ BEFORE BIDDING.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

Lots are sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer $1.00 for the lot, make your bid 10c.

NO COMMISSION IS CHARGED FOR EXECUTING BIDS AT MY SALES.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me must send a deposit covering at least 25 per cent. of their bids or send satisfactory reference, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is unknown to me.

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing prices of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before November 11, 1911.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

NOTICE TO NEW BIDDERS.

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

QUARTER EAGLES, or $2.50 GOLD PIECES.

Philadelphia Mint.

Nearly Complete Collection—Ninety-four Dates and Varieties of the Philadelphia Mint Alone.

66 1796 First year of the $2.50 gold piece. Draped bust of Liberty to right, the word LIBERTY above, and the date below. Reverse, heraldic eagle bearing on its breast U. S. Shield: a bunch of arrows in its right talon, and an olive branh in its left. Scroll suspended from its beak, inscribed E. PLURIBUS UNUM. Sixteen stars about the Eagle's head, and a semi-circle of clouds above. round, UNITED STATES OF AMERICA. Milled edge. Fine for coin. Very rare.

67 1797 Same type as last, but with thirteen stars, 6 before and 7 behind bust. The Obv. die is cracked from the letter Y to the last star, as are all known specimens of this date. Strictly fine, with traces of mint bloom. Excessively rare. Classed as one of the rarest U. S. gold coins, and probably less than ten specimens known. Auction record over $300.00.

68 1798 Type as last, but with 7 stars before and 6 behind bust, and only 13 stars about eagle's head on Rev. Magnificent uncirculated specimen; proof surface, and about equal to a proof Have never sen in its equal. Very rare.

No quarter eagles were coined in 1799, 1800, 1801, 1803.

69 1802 Five stars before, 8 behind Liberty head. Otherwise same type as last. A tiny dent below chin. Extremely fine, about uncirculated with beautiful mint bloom surface, and a fine sharp impression. Very rare. Record up to $80.00.

70 1804 Five stars before, 8 behind bust. 14 stars around eagle's head on reverse. Very fine, strong impression, some mint bloom. Rare.

71 1805 Six stars before bust, 7 behind it. Thirteen stars around eagle's head on Rev. A sharp **uncirculated** specimen. Nice, even mint luster; perfectly centered. Rare and very choice. Record over $30. And this specimen is certainly worthy of the record price.

72 1806 over 1804. Five stars before, and 8 behind bust. 13 stars around eagle's head on reverse. A very tiny and immaterial nick on edge, which does not in any way defect the appearance of the coin. Very fine, some mint bloom. Rare.

73 **1806 over 1805.** Six stars before, and 7 behind bust. 13 stars around eagle's head on reverse. A very faint scratch back of bust; and top of the word STATES a trifle weaker struck than the rest, but everything, of course, very plain, otherwise it is an extra fine specimen with mint luster covering nearly the entire surface. Excessively rare. As rare, I believe, as **any** quarter eagle.

74 1807 Six stars before, and seven behind bust. 13 stars around eagle's head on reverse. Extremely fine, and unusually well struck up. Frosty mint luster. Very choice.

75 1808 The new type. Draped bust of Liberty facing to left, wearing cap, the band of which is inscribed LIBERTY. Seven stars before, and 6 behind bust, date below. Reverse, Eagle with outstretched wings, United States Shield on breast, olive branch in right talon and three arrows in left; E. PLURIBUS UNUM on scroll above eagle. Around, UNITED STATES OF AMERICA 2 1/2 D. Three pin point nick on Obv. field. A good strong impression, and very fine. Very rare. Seldom found better or as good.

This type was used this year only, 1808. No quarter eagles were issued from 1809 to 1820 inclusive, nor in 1822, 1823, 1828.

76 1821 Undraped bust of Liberty facing left, band of cap inscribed LIBERTY. Around 13 stars; date below. Reverse, same type as 1808, but eagle is smaller. Sharp, brilliant unirculated. Proof surface, and certainly about equal to a proof. Extremely rare. This specimen is worthy the highest record.

This type was used till 1834.

77 1824 over 1821 (as all are) Very fine. Very rare.

78 1825 Very light scratches on both sides, only one scratch extending from olive branch to D of UNITED, would slightly depreciate the value, but the coin is otherwise a proof, and very desirable. Very rare.

79 **1826** Strictly fine, well centered and even impression. Pin point immaterial nicks on Obverse. Excessively rare. Less than ten specimens known. Auction record about $175.00. One of the rarest quarter eagles, and seldom offered.

80 1829 Beautiful sharp, impression; only the barest degree short of being a brilliant proof. Very rare in any condition, but a great rarity when so choice. Recent record $66.00.

81 1830 About uncirculated, mint luster. Very rare and choice.

82 1831 Beautiful semi-proof. Perfectly, and sharp struck, every star filled and everything perfectly centered. Very rare and desirable. Record over $40.00.

83 1832 Semi-proof. Equal in condition to preceding lot. Rare.

84 1833 Very slight dent—hardly noticeable—on edge. Fine to very fine. Rare.

85 1834 The new type. Undraped small bust of Liberty facing left. The word LIBERTY on band across head. 13 stars; date below. Reverse, same as preceding type but without E. PLURIBUS UNUM. The large head variety. About uncirculated, some proof surface. Very choice specimen.

86 1834 Large head type as ast. but the fraction in 2 1/2 D is smaller and the feather of the arrows is entirely different than on last. Extremely fine, mint luster.

87 1834 Small head variety. Reverse die different to last. Fine. Scarce.

87A 1834 Small head variety. Beautiful semi-proof. Very choice.

88 1835 Variety with "comma" above D in 2 1/2 D. Fine.

89 1836 High 6, curved date. Rev. thin leaves and no berry in olive branch. Very fine.

90 1837 Compact date. Perfect, sharp impression. Extremely fine, near Unc. Mint luster. Very scarce.

91 1838 Wide date. Arrows touch CA. Very fine, broad border. Scarce.

92 1839 The 9 of date very close, but does not touch curl. Fine. Very scarce.

93 1840 The new type. Small bust of Liberty to left, hair drawn back; Diadem inscribed LIBERTY. 13 stars, date below. Reverse, Eagle of the same type, but smaller than on preceding type. Around UNITED STATES OF AMERICA 2 1/2 D. Very fine. Very scarce.

This type was used till 1907.

94 1843 Extremely fine, sharp; mint luster. Scarce.

95 1844 About fine. Very scarce date. Record for Unc. $16.00.

96 1845 Variety with very thin die break on Rev. extending from edge near F down through 2 of fraction. Uncirculated, mint bloom. Scarce.

97 1846 Very fine. Very scarce date.

98 1847 The 1 and 7 of date touch bust. Perfect die. Tiny nick on edge. Extremely fine. Scarce.

99 1848 A sharp, well struck specimen. Extra fine. Rare. Record for a fine specimen, $10.00, and for a proof, $95.00.

100 1849 Extremely fine, near unc., with mint bloom. Scarce.

101 1850 Wide date. Uncirculated, dull surface.

102 1851 First 1 of date touches bust and rim. Unc.

111 1860 Uncirculated, with pretty proof surface. Almost equal to a proof. Rare so choice. Record over $10.00.
112 1861 Extremely fine, some mint luster.
113 1862 Abount uncirculated, with some mint bloom.
114 **1864** Very fine, and excessively rare. Seldom offered; but very few of the largest sales possessed a specimen. Mr. Shinkle's "United States Coin Values and Lists" quotes a record of $98.00 for a proof specimen of this precious date.
115 1866 About uncirculated, with bright mint bloom. Extremely rare, seldom offered.
116 1867 Very fine, with considerable mint bloom. Extremely rare. One in the Appleton sale, in 1907, catalogued as very fine, brought $38.00. Recent record has not been as high.

195 1873 About uncirculated with considerable proof surface. A very faint and hardly noticeable nick above RS in the word DOLLARS. The light evidence of circulation the coin bears is due to cabinet friction only. It is a strictly choice specimen of one of the very rarest $3.00 gold pieces. Only 25 specimens were coined; and if the mint report is correct, this coin is next in rarity to the 1875 of which but 20 specimens are reported to have been coined.

Reverse smaller eagle and without E PLURIBUS UNUM. **Variety with 4 of date with crosslet.** Reverse is entirely different die than the other varieties of this date. The 5 D are spaced different and the arrow points are much smaller than on the other varieties. Extremely fine, near uncirculated with mint lustre and of excessive rarity. Mr. Cowell discovered this variety several years ago, and to the best of my knowledge, but three or four specimens are known.
243 1834 The "large 4" variety. Rev. last A in AMERICA close to arrow points. Fine. Scarce.
244 1834 Very small 4 in date. Reverse last A distant from arrow head. Very fine.

273 1857 Extremely fine. Good strong impression. Rare. No record of public sales in Adams book.

274 1858 Very good to fine, but very rare. I can find only one record of sale and that of $45.00 for a proof sold in 1907. This specimen is not worth $45.00, but is quite a rarity and considering the small number coined and the still smaller number offered, this coin should bring a correspondingly fair price.

275 **1859** Extremely fine; some mint lustre. And about as rare as the 1858.

338 **1873** Fine. **Excessively rare.** Only 825 reported to have been coined. I can find no record of one ever having been offered at auction sale. Even the Woodin sale, which contained a collection of 172 different Eagles, did not contain a specimen of 1873.

339 1874 Extra fine. Semi-proof surface.

340 **1876** Fine. Extremely rare. Only 732 coined. Has been skillfully plugged above Liberty head, and the letter E in the word TEN has been re-engraved. A very skillful job and hardly noticeable. Record $35.00.

DAHLONEGA (Georgia) MINT.

(Organized in 1838; discontinued in 1861. Mint mark "D". Gold coins only of the $1.00, $2.50, $3.00 and $5.00 denominations were coined at this mint.)

374 1853 Very fine. Rare.

375 1854 Fine to very fine. Very rare. Record about $20.00. In comparison to the number specimens coined and offered at auction, it is as rare and valuable as the rare gold dollars of the 60's.

376 1857 A very small nick on reverse edge, not defecting the piece in any way. Fine to very fine; with mint lustre. Well centered. Very rare. Record over $20.00.

377 1858 The 8 and 5 of date as usual, weakly struck, otherwise, about uncirculated with brilliant mint bloom. Rare.

378 1859 Extremely fine. Very rare.

392 1853 Practically uncirculated with semi-proof surface. Exceedingly rare in any condition. Record of $50.00 for a very fine specimen in the Appleton sale 1907. The near future will see these coins appreciated to the extent that their present record will be insignificant to the prices they will bring.

The Excessively Rare 1855 Quarter Eagle "D" Mint.

Lot No. 393.

393 1855 Well centered, good even impression, and marks of circulation evenly distributed. Strictly very good, and can almost be classed as fine. Excessively rare.

Mr. Cowell claims this to be the second rarest quarter eagle of the Dahlonega mint; this claim is based on the mint report, giving it next to the smallest number coined. But upon a very minute investigation I fail to find any record of auction sale of this specimen, while both the 1854 and 1856 have been offered in recent years, not a single specimen of this variety has ever before, to my knowledge, been offered at auction.

The collection of 266 quarter eagles offered by Mr. Sears at private sale, two or three years ago, did not contain the 1855 "D". The collection of 147 different quarter eagles sold at auction in New York by Mr. Raymond, in December 1910, and the Woodin collection of 205 all different quarter eagles and catalogued as "The Largest Collection Ever Offered At Auction", while containing about all other great rarities, did not contain the 1855 D. I consider this coin not only one of the rarest quarter eagles, but one of the great rarities of the entire United States coinage.

394 1857 Extremely fine. Mint lustre. Excessively rare. Another great rarity whose recent record of $75.00 hardly indicates its true value. The coin, considering its great rarity is worth at least $100.00 to $150.00.

395 1859 Last quarter eagle of this mint. Extremely fine. Strong impression; mint lustre. Excessively rare. Only one or two records of sale.

THREE-DOLLAR GOLD PIECE.

Dahlonega Mint.

396 1854 The only $3.00 gold piece coined at this mint. Very fine. Well centered, and about the strongest impression of this coin I ever saw. Excessively rare and far more so than is generally known by the collector. I doubt if there are more than ten or fifteen specimens known. This specimen is far better than the one I recently sold at private sale for $60.00.

PRIVATE AND TERRITORIAL GOLD COINS

The Private and Territorial gold coins were issued by private firms in the "Pioneer" days of the West, in the 30's in the Carolinas and Georgia. While not a legal coinage, these pieces were readily accepted and passed current at a time when there was a pressing need of money with which to transact the business of the country.

The present scarcity of these coins is due to the limited number of specimens having been struck, and also to the greater number that have since been re-melted.. They represent, to the student of American History, the most interesting series of "Necessity Money" ever issued.

Very fine, some mint lustre. **Excessively rare.** To the best of my knowledge, this is the first specimen to be offered at auction. No record given by Mr. Adams in his extensive list of these rare pieces, and neither the large Stickney and Zabriskie collections contained a specimen of this great rarity.

UTAH.

Coins Issued by the Mormons.

818 1849 **$2.50** Bishops hat above eye. Around border, HOLINESS. TO. THE. LORD. Rev. clasped hands beneath which is the date 1849. Around border, G. S. L. C. P. G. TWO. AND. HALF. DO. (The initials stand for Great Salt Lake City Pure Gold). Plain edge. Perfectly centered and with a good strong impression. Every letter and figure bold. Extremely fine for coin, and I doubt if there is a better specimen known in existence. Extremely rare and very desirable. Next in rarity to the Mormon $20.00 gold piece.

819 1849 $5.00 Same variety as last, but of course with FIVE. DOLLARS. on reverse. Extremely fine, and the best impression I have yet seen on a Mormon coin. The date, which is usually weak, is very strong. Extremely rare in this choice condition.

820 1850 $5.00 Obv. Eye of Providence within a circle of 9 five-pointed stars, around HOLINESS EO THE LORD. Rev. clasped hands, below which, is date. Around G. S. L. C. P. G. FIVE DOLLARS. Plain edge. Fine. Everything well struck up including date. Very rare.

821 **1860** $5.00 Obv. Lion reclining to left; date below, around, in Mormon characters, HOLINESS TO THE LORD. Rev. Eagle with outstretched wings standing behind a bee hive, below which is 5. D. Around DESERET ASSAY OFFICE PURE GOLD. Milled edge. Extra fine. Very rare and in great demand.

There is a great religious sentiment felt by all Mormons toward these coins, and in order that their coins should not be possessed by the Gentiles, nearly all of these coins that they could possibly get possession of, were remelted. These coins are highly interesting, not only from the fact that they are a pioneer issue, but from the fact that they are, I believe, the only coinage issued by any religious sect.

With View of Pikes Peak.

Lot No. 830.

830 1860 $20.00 Obv. view of Pikes Peak, below which, DENVER. Around, in larger letters, PIKES PEAK GOLD TWENTY D. Rev. Defiant eagle, head turned to left; U. S. shield on breast; holding an olive branch in his right talon and three arrows in its left. Around CLARK, GRUBER & CO., 1860. Serrated borders. Milled edge. A few very light and immaterial nicks in fields; the obverse is not as bold struck up as reverse, as are

all known specimens of this great rarity. But the coin can easily be classed as very fine. Since 1883—nearly thirty years—only one specimen was offered at auction. Only about six specimens known, and I know of one specimen having sold for $1,000.00. Considering the number known and the great rarity of this coin, it is worth a far greater price than it has ever been sold for.

The Three Notes Sold as One Lot.

Note.—This currency was the result of long and tedious experiments by Dr. Gwynn. In Mr. S. M. Clark's report to the Secretary of the Treasury in 1865, a full account will be found. Mr. C. was at that time chief of the Fractional Currency Bureau. The substance of the report is as follows: Dr. Gwynn earnestly devoted himself to the experiments of dry printing to give me the aid in this work. The first membrane paper provided was unsatsifactory. The peculiar process of making rendered it more liable to split than ordinary bank note paper, and was abondoned, but experiments were immediately made to overcome this difficulty, and ultimately with entire success. He now produces a paper which cannot be dissolved in hot or cold water, which cannot be split, which has an irremovable, non-photographic tint in its spider-leg fibre, and which takes ink more readily, retains it longer, wears better, and is in every respect the best paper ever manufactured for the purpose. Dr. Gwynn about this time was arrested and imprisoned, through some difficulty in regard to dry process of printing, and the whole scheme fell through, only one sheet of each was made, as a sample. These few notes were preserved by an official of the Treasury Department, who had them in his possession some eighteen years. They are unquestionably the rarest, by far, of all currency known or ever offered for sale.

A Rare Curiosity.

1040 50 Cents. Crawford. **With the autograph signature of Jno. C. New** written across the face of the note. There are only three or four of the 50 cent Spinner notes with this signature known, as Mr. New was in office but a very short time, I believe, about two weeks. While this note is of course, not near as rare as the Spinner note with this signature, yet, I consider it quite a rarity and it should bring a correspondingly fair price.

FORT WORTH, - - - - TEXAS

Please Note

A neatly printed list of prices, showing amounts realized for EACH LOT of this sale—over seventeen hundred lots (1700)—aggregating in value upward of ten thousand dollars ($10,000.00), will be supplied for ONLY FIFTY CENTS.

This is the best and recognized standard method by which to keep informed on the values of coins.

THE PRICE OF FIFTY CENTS for a price-list of a seventeen-hundred-lot sale will be recognized, I believe, as a very fair price indeed.

Kindly send in your order NOW.

¶ I shall be pleased to correspond with Numismatists who are thinking of selling their collection or any of their duplicates. I will gladly furnish you with complete information as regards my terms and methods, with absolutely no obligations on your part.
